

Sammons Securities Company, LLC Business Continuity Planning

Sammons Securities Company, LLC has developed a Business Continuity Plan on how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions is unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contacting Us – If after a significant business disruption you cannot contact us as you usually do at 734 663-1611, you should call our alternative number 352 688-8815 or go to our web site at www.sammons4clients.com.

For our clients, if you cannot access us through either of those means, and you have a brokerage account you should contact our clearing firm, First Clearing, LLC at 877 496-3223 for instructions on how it may be able to service your needs while you are unable to contact us. They should be able to provide you prompt access to funds and securities and enter sale orders. If you own a variable annuity or a mutual fund which is held by the fund itself, contact them at the number on your statements.

For financial advisors and registered representatives you may contact First Clearing, LLC at 877 496-3221 for support and trading.

Our Business Continuity Plan – We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting the firm's books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our firm to resume operations as quickly as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses: data back up and recovery; all mission critical systems; financial and operational assessments; alternative communications with customers, employees, and regulators; alternate physical location of employees; critical supplier, contractor, bank and counter-party impact; regulatory reporting; and assuring our customers prompt access to their funds and securities if we are unable to continue our business.

Our clearing firm, FCC, backs up our important records in a geographically separate area. While every emergency situation poses unique problems based on external factors, such as time of day and the severity of the disruption, our clearing firm has advised us that its objective is to restore its own operations and be able to complete existing transactions and accept new transactions and payments. Your order and requests for funds and securities could be delayed during this period.

Varying Disruptions – Significant business disruptions can vary in their scope, such as only our firm, a single building housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we will transfer our operations to a local site when needed and expect to recover and resume business within 48 hours. In a disruption affecting our business district, city, or region, we will transfer our operations to a site outside of the affected area, and expect to recover and resume business within 3 business days. In either situation, we plan to continue in business, transfer operations to our clearing firm if necessary, and notify you through our web site www.sammons4clients.com or our customer emergency number, (352-688-8815) how to contact us. If the significant business disruption is so severe that it prevents us from remaining in business, we will assure our customer's prompt access to their funds and securities.

For more information – If you have questions about our business continuity planning, you can contact us at 734-663-1611.
